T3 Urban Developers,

Suryakanti Apartment,

Renuke Nagar.

Hubli.

It's my immense pleasure to write

about T3 developers. Hubli is a two

tier city and economically well developed

as compared to other cities in India. &

still flats & apartments are dreams to the

people of Hubli. But as T3 developers have

taken a strong & courageous step to build

good quality apartments with more economical.

people of Hubli have turn their minds in

living in apartments. T3 developers started

construction 6 months back and at each &

every stage they maintained good construction

and quality work. The materials used

are so good that no one can think

second opinion about it. People

who don't purchased the apartment

by T3 developers are repeating. I am
proud to say that T3 developers are
100% professionals in building good quality
apartments and in future I suggest
them to build more & more apartments
in hubli and other two tier cities in
other parts of India,

With Regards,

Rajesh Yakkundimath,

Assistant Professor,

Dept. of Computer Science & Engg.,

K. J. Somaiya Institute of Technology,

Airport Road, Gokul, Hubli.
